

Advanced Echocardiography Course

Course on Echocardiography organized by the BWGNICI

Friday 14th

October 2022

OLV Aalst

W +4 Auditorium Guernica
Moorselbaan 164
9300 Aalst

Friday 14th October 2022

08:30 - 09:00: Registration – Coffee

09:00 - 09:15: Welcome

Guy Van Camp, OLV Aalst

Part 1: Percutaneous Valvular procedures

09:15 - 09:40: MitraClip procedure:

selection of patients and guiding the procedure

Philippe Debonnaire, AZ Sint-Jan Brugge

09:40- 10:05: TAVI:

Still a role for echo or is the field occupied by CT?

Agnès Pasquet, UCL Brussels

10:05 - 10:30: TriClip:

Selection of patients and guiding the procedure

Philippe Unger, CHU St Pierre Brussels

10:30-11:00: Coffee Break

Part 2: Deformation imaging

11:00 - 11:25: Strain and myocardial work in ischemic and non-ischemic LV disease

Jens-Uwe Voigt, UZ Leuven

11:25 - 11:50: Strain and myocardial work in valvular heart disease

Martin Penicka, OLV Aalst

12:50 - 12:15: Strain of the left atrium: clinical utility anno 2022

Philippe Bertrand, ZOL Genk

12:15 - 12:40: Strain of the RV: when and how to use?

Adriana Postolace, CHU de Liège

12:40 - 14:00: Lunch

Part 3: Ischemia and viability testing

14:00 - 14:25: Role of non-invasive stress testing versus CT coronary arteries for the management of CAD

Caroline Van De Heyning, UZ Antwerpen

14:25 - 14:50: Do we still need to search for viability? When and how?

Frank Timmermans, UZ Gent

14:50 - 15:10: Coffee Break

Part 4: Cardiomyopathies

15:10 - 15:35: Amyloidosis: role of imaging in the diagnosis and treatment

Steven Droogmans, UZ Brussel

15:35 – 16:00: HCMP, LVH in hypertension and athletes heart: role of imaging

Guido Claessens, UZ Leuven

16:00 – 16:30: CPET Echocardiography: utility in valvular heart disease and the dyspnea clinic

Jan Verwerft, Jessa Ziekenhuis Hasselt
